

# STUDY GRAPHIC DESIGN AT ACG YOOBEE

## KICKSTART YOUR CAREER IN THE WIDE WORLD OF DIGITAL DESIGN!

ACG YooBee are proud to offer a selection of three exciting online courses, each covering a different Adobe Creative Cloud tool.

These amazing tools are the same ones used by professionals throughout the world, and learning them now will ensure you're on a fast-track to a successful career in the digital design industry!

## ILLUSTRATOR

Take this online course and get up and running with Adobe Illustrator, the industry standard software for creating vector art.

Illustrator is used to create beautiful illustrations, logo and identity design, packaging, fashion design, web design and more.

## INDESIGN

Create show-stopping magazines, newsletters, brochures, and more, using Adobe InDesign – the industry standard in document layout software.

Learn all you need to know about setting up documents, working with text frames, importing and working with images, and arranging, stacking and layering elements.

## PHOTOSHOP

Fire up your Photoshop skills and discover why it's the go-to digital-imaging software for photographers, designers, and web and video professionals.

Create a web banner, a flyer and an A4 poster from photos and graphics.
